

## **Business Law**

Business law is a broad term, often referred to as commercial law, and often focusing on regulating commercial entities as well as commercial transactions. The laws that dictate how to form, operate, manage, and dissolve a business are vital to the survival of any commercial entity. Whether your legal needs involve compliance with state and federal laws, or local or administrative regulations, we are adept at finding workable solutions. Our client's needs often overlap other areas of our expertise, including areas such as employment law, contract drafting, intellectual property rights, and mergers and acquisitions. Our experience in guiding our clients through the maze of legal and administrative hurdles can help your business be successful. We are not only problem solvers, we work with you to avoid the mis-steps that can force you to devote your time and energy to things that do not help you succeed.
